Resume Objective

Fresh Front-End Web Developer seeking a challenging position in a reputed organization where I can learn new skills, expand my knowledge, and leverage my learnings. I am currently finishing the GA Tech Full-Stack Web Development Bootcamp and am eager to enter the industry. I am looking to relocate and am open to either in-office or remote work.

Skills Summary

JavaScript REACT Database

- Build dynamic projects that seamlessly integrate with different media types
- Familiarity with React Native for mobile development
- Familiarity with JavaScript Syntax and the use of Node.js, and I am learning TypeScript

HTML/CSS Frameworks (Bootstrap, Skeleton)

- Can code effectively in HTML and can make CSS stylesheets that are custom to an HTML project
- Can utilize Bootstrap and Skeleton to make dynamic web pages that are mobile-first in design

Database Management (MySQL)

- I have beginner-level experience navigating MySQL, including table and database creation, merging tables, and sorting data
- Familiarity with Sequelize for data management with Node.js and serverside communication

API Creation and Utilization

- Have worked with numerous APIs and am very capable of managing keys, OAuth, and using documentation to achieve design and function goals

- Beginner level experience creating APIs and pathways for data collection and POST
